

FSE 130

**Fuel
System &
Emission
Service**

FSE 130 applies cleaner as an atomized mist. This provides a more even distribution of the cleaner to all intake runners and valves as well as the combustion chamber

- ◆ Cleans deposits from intake valves, fuel injectors & combustion chambers
- ◆ Restores lost power
- ◆ Improves fuel economy
- ◆ Operates on shop air
- ◆ No aerosol cans required
- ◆ Application time is minimal

**Connects
directly to
vehicle's
fuel rail**
