

Pure Nitro

Tire Inflator N2-900/930

- ◆ Whole process takes only minutes
- ◆ All 4 tires at once
- ◆ Produces its own nitrogen
- ◆ Shop air only

*Another Innovative
Machine from Kenvo*

Kenvo Technology brings you the very best in replacing regular air with nitrogen. Kenvo has developed a four-tire valve system to enable the user to service all four tires at once. The machine only needs shop air, no electrical power.

Other machines makes the user fill and deflate the tires multiple times to achieve 95% nitrogen in the tires. The Pure Nitro applies a slight vacuum to evacuate all the air before filling the tires with nitrogen, only needing to inflate them once. The end result is a much faster service with 95-97% nitrogen in the tires.

TECHNICAL DATA

4 Tire Hook Up
Makes 95-97% Nitrogen
Vacuums tires before filling
Easy two valve operation
Auto shut off when N2 Tank is full

Model # N2-930
52 Gallon Tank, 225 lbs
30-50 Vehicles per day
Compact Size
(25 x 20 1/2 x 56)

Model # N2-900
25 Gallon Tank, 170 lbs
15-25 Vehicles per day
Compact Size
(22 x 17 x 47)

**One Year Limited
Warranty**
